Professional Summary

B.Sc. Mathematics graduate with practical training in Data Analytics and a strong foundation in analytical thinking, problem-solving, and statistics. Hands-on experience using Excel, SQL, Power BI, and Python for data cleaning, analysis, visualization, and dashboard development. Skilled in working with datasets, identifying trends, answering business questions, and generating meaningful insights through interactive dashboards. Seeking an entry-level Data Analyst opportunity to apply analytical skills and contribute to data-driven decision-making.

Technical Skills

Data Analysis: Excel, SQL, Python, Data Cleaning, Data Analysis, Statistical Analysis
Data Visualization: Power BI, Tableau, Matplotlib, Seaborn, Dashboard Development, Data Visualization
Python Libraries: NumPy, Pandas
Power BI: DAX, Power Query, Interactive Dashboards, KPI Reporting
Database: MySQL
Productivity Tools: Microsoft Excel, Word, PowerPoint
Other: LaTeX

Internship Experience

Data Analytics Intern October 2026
Brand Monk Academy *One-month unpaid internship*

- Completed a four-week industry capstone project analyzing customer shopping transactions and business trends.
- Used Excel PivotTables and KPI summaries, MySQL business queries, and Python (Pandas, NumPy) for data analysis and validation.
- Prepared exploratory data analysis visualizations and developed a Power BI report with KPI cards, charts, and slicers.
- Summarized findings across product categories, shopping malls, payment methods, customer demographics, and sales trends.

Projects

Customer Shopping Behavior Analysis | *Excel, MySQL, Python, Power BI* October 2026

- Analyzed a dataset of 99,457 transaction records to compare recorded sales, quantities, payment methods, customer segments, and shopping locations.
- Performed data-quality checks and exploratory analysis; used SQL aggregations, subqueries, CTEs, window functions, and joins to answer business questions.
- Identified Clothing as the leading category by recorded sales and Mall of Istanbul as the highest-sales mall in the dataset.

Excel_Bike_Resale | *Microsoft Excel, Data Cleaning, Data Analysis, Dashboard* 2026

- Analyzed bike resale data to identify pricing trends, customer preferences, and factors influencing resale value.
- Cleaned and transformed raw data using Excel functions and prepared the dataset for analysis.
- Created an interactive dashboard with charts and key metrics to present business insights.
- Identified patterns in bike prices, brands, models, and other attributes to support data-driven decisions.

Education

AVC College (Autonomous) 2021 – 2024
B.Sc. Mathematics — Affiliated to Annamalai University *CGPA: 7.3/10*

Certifications & Training

Data Analytics: Brandmonk Academy, Coimbatore July 2026 – Present
HDCA: Honours Diploma in Computer Applications July 2022 – July 2023
SQL & Database Management
Financial Accounting: Tally Prime with GST
Graphic Design: Adobe Photoshop, Illustrator & InDesign January 2026 – March 2026
